# Muhammed Shafeeque P

## Sr Software Engineer

### Profile

As a seasoned Mean/MERN Stack Developer, I offer a rich blend of knowledge and technical prowess that sets me apart. With a solid track record of 2 years in crafting cutting-edge web applications, I bring a wealth of expertise encompassing both front-end and back-end development. Additionally, my proficiency extends to seamless deployment on diverse cloud platforms.

### Work Experience

May 2022- Present  
Rawdata Technologies , Cochin  
**Sr Software Engineer**

#### InTEution ERP Solution for the Shipping Industry

- Implemented URP (User Role Permission) in the InTEution Project on the Front-End side.
- Initiated the Data Visualization process within the InTEution system.
- Developed a software solution, the "InTEution Sales App," designed to integrate seamlessly with InTEution as an associate application.
- Managed a dedicated 4-member team throughout the development of the Sales App's Front-End.
- Utilized Angular 14 for Front-End development
- Successfully delivered the Sales App within a remarkable time
- Developed a module called CMNR (Container Maintenance and Repair) for the InTEution project using Angular.
  - Completed the CMNR module in just 2 months, surpassing the company's initial estimate of 6 months.
- Led a team during the development of the BC29 program, which served as a Welcome display board for the new Accenture office in Bangalore. This project utilized MERN stack technology.
  - BC29 presented significant challenges and exciting opportunities for me.
  - Gained practical experience in DevOps during the BC29 project.
  - Enhanced problem-solving skills through involvement in the BCD9 program.

March 2021 - Jan 2022  
Reizen Hub, Malappuram

#### Co-Founder & CTO

- Developed a comprehensive project to bring the innovative concept of Reizen Hub to life
- Designed and structured the entire project, ensuring its successful execution.
- Implemented crucial technologies like Razorpay and Twilio using Node.js to enhance the project's functionality and features

## EXPERTISE

- Database & ORM
  - MongoDB
  - Mongoose
  - TypeOrm
- Tools
  - Git
  - Vs Code
  - Jira
- Cloud Platforms
  - Digital-ocean
  - Aws
  - Ovh Cloud
- Cloud Repositories
  - GitHub
  - Bit Bucket

## LANGUAGES

- English
  - Speak
  - write
  - read
- Malayalam
  - Mother tong
  - write
  - read
  - speak
- Arabic
  - Read
  - Write

## Education

- **Indira Gandhi Open University**  
*Bachelor in Computer Application*  
2023 - ongoing
- **Gov. Polytechnic Perinthalmanna**  
*Poly Technic Diploma In EEE*  
Completed in 2017

## Projects

### ○ Customer Portal- B2B portal in Inteution Environment

DECEMBER 2023 -ONGOING

- **Technologies:** Angular 14, Bootstrap
- **Role:** Senior Software Engineer - Front-End

Customer Portal For Inteution is a B2B portal that is integrated with the inteution. This project shows how to work a B2B portal and its structure to me

- **Details:**
  - developed BL (Bill Of Leading ) feature for this project, and this page will communicate with both inteution and Customer Portal server

### ○ Stack Runner - Testing Environment For Inteution

OCT 2023 -NOV 2023

- **Technologies:** MEAN Stack (MongoDB, Express.js, Angular 14, Node.js)
- **Role:** Architect, Lead(5 Team Members)

Inteution is a large-scale application that handles heavily complicated business, so its development and testing are also heavily complicated processes, my team developed a project to help the entire Inteution team, stack runner reduces efforts by at least 3 hours minimum per employee per day

- **Details:**
  - We Can Create Scenarios of intention with arrangements of blocks,
  - user can run Scenario With minimal inputs, it will auto-generate required values if the user not entered
  - Stack Runner Will Send Ueser A detailed Report via Email after each Process
  - Stack Runner Will Identify the behavior and performance of Each Feature in Inteution
- **Key Achievements :**
  - I Led A 5 member Team And Successfully delivered our Project on time
  - Reduced our company's costs due to decreased employees effort
  - I designed the core concept of Stack runner

### ○ Sales App - Salesman tool in inteution Environment

March 2023 -May 2023

- **Technologies Used:** Angular, Angular Material
- **Role:** Friend End Lead
- **Description:**
  - Sales App will help salesman in their sales process
  - Admin Can add target for each salesperson
  - Salesman can find the nearest customer by location
  - The salesman will get all the sales history of the customer at any time
- I led 3 members team for sales app

### ○ inteution - ERP for Shipping Company

Jun 2022 to ONGOING

- **Technologies Used:** Angular, Ng Bootstrap
- **Role:** Senior Software Engineer (FE)
- **Description:**
  - Inteuton is the core Engine of Inteution Ecosystem
  - Inteution is also an ERP solution for the shipping industry
  - Inteution handling Heavy complicated Wide area business
- **Contributions :**
  - I developed A complete Module named CMNR (Container Maintenance And Repair System)
  - I handled more than two people during this Period
  - Designed URP (User Role Permission) structure For Inteution System
- **Achievements :**
  - Completed Development of CMNR with 1.5 Months, but its estimate was 3 Months
  - Implemented URP in inteution
  -

# Projects

## BC29 Display management System – Accenture

March 2021 – Jan 2022

- **Technologies:** MERN Stack (MongoDB, Express.js, React, Node.js), Chakra UI, Socket io, Framers js
- **Role:** Full Stack Developer
- **Description**
  - Developed For Accenture Bangalore office,
  - BC29 Have 2 screens That will communicate real-time each other
- **Achievements**
  - Delivered Project within 15 days to customer
  - Designed A project

## Reizen Hub

MAY 2022 –JUN-2022

- **Technologies:** MERN Stack (MongoDB, Express.js, React, Node.js), React bootstrap
- **Role:** Full Stack Developer
- **Description**
  - Reizen Hub is an innovative product for the travel and tourism industry,
  - Reizen Hub Makes A global Market of Tourist Package
  - Reizen Hub Fully Focused On B2B Business
- **Achievements**
  - Designed Reizen hub Project
  - Introduced An idea to the industry
